

**TRINITAS REGIONAL MEDICAL CENTER
SCCAT Program/Atlantic Behavioral Health**

Present

What Choice Do I Have? How abuse, bullying and discrimination against people with ID/DD influences their decision making in relationships and increases their risk for future victimization.

PROGRAM DESCRIPTION

Objectives -

- 1) Provide an understanding of the prevalence of abuse and risk factors associated with people with IDD.
- 2) Identify how abuse, bullying and discrimination influences behavior and decision making in relationships with others.
- 3) Describe ways education, counseling and advocacy can help one understand, recognize and communicate about sexual violence
- 4) Identify various areas for consideration in treatment planning, including advocacy and empowerment.

Presenter: Tracy Higgins, M.A., L.P.C.

When: Wednesday, June 18, 2014, from 1pm – 4pm
